

Editorial

It is with great pleasure that we welcome to the inaugural issue of a Journal of Nepal Physical Society (JNPS) **Volume 6, Issue 2 (2020)** which is peer-reviewed, open access journal dedicated to publishing articles focused on different field of physics. On behalf of JNPS, I would like to thank and extend my gratitude to my editorial board members, reviewers, readership as well as the contributing authors for creating this issue of JNPS. This journal focuses on the original research articles contributed by our members, university faculties, researchers, and students on the contemporary issues in all the domain of physics. JNPS publishes regularly submitted manuscripts; selected and reviewed by the regular system and accepted for publication. JNPS provides an ideal forum for exchange of scientific achievement on the disciplines of physics. The journal's editorial board is strongly convinced for providing peer-reviewed articles and is dedicated publishing manuscripts bi-annually. To ensure rapid circulation of information, JNPS aim at completing the review process of each manuscript within 1 month of initial submission. JNPS has upgraded website so that all publication procedure such as articles submission, reviewing and correspondences can be completed from the online domain. The journal encourages quality scientifically valid, original articles

which present a good understanding of scientific knowledge, experiment and theories, methods, and techniques. JNPS aims for the rapid publication of research articles at a high scientific level. Further, JNPS will periodically issue special calls for papers to develop and strengthen research areas on physics and will be published as special issues. All the papers published in this edition underwent peer-review process involving a minimum of two reviewers. JNPS is currently accepting manuscripts for upcoming issues based on original qualitative or quantitative research. The JNPS Editorial team welcomes the constructive feedback for the improvement of the publication incoming issues. Finally, we very much appreciated your comments queries, suggestions, and correspondences. Thank you.

This is indeed an exciting time for JNPS. Future issue may include a Review Paper focus. We look forward to helping advance the field of physics research by providing another new research of our well-wisher.

Thank you.

Editor in Chief
Dr. Binod Adhikari
