Nepal Tourism Year 2011

Background
The Government of Nepal in consultation and comprehending the voice of the Nepalese tourism stakeholders decided on October 25, 2008 to launch a national tourism campaign “Nepal Tourism Year 2011 (NTY 2011)”. The announcement of the campaign reflects the recognition of the tourism sector as one of the economic mainstays of the Nepalese economy by the government. It is also analogical to the various interactions and consensus among the Ministry of Tourism and Civil Aviation (MoTCA), the Nepal Tourism Board (NTB), tourism entrepreneurs and other stakeholders in launching a special tourism promotion campaign, in order to further enhance the image of Nepal as a safe and pleasant tourist destination in the international tourism arena.

With the badge of adventure destination glittering and the adage “Atithi Devo Bhava” (Guests are Gods) embedded in our culture, the assortment of our tourism products never ceases to mesmerize the visitors from around the world. The unparalleled and unique cultural, geographical, ethnic and bio diversities of the country allure visitors to Nepal time and again, which truly substantiates the spirit of the Nepalese tourism brand “Naturally Nepal, once is not enough!”

The essence of tourism and its role lies in contributing to economic growth, poverty alleviation and overall social development. The NTY 2011 envisions harnessing these opportunities and strengths and bringing together the commitment of the government, expertise and experiences of organizations like the NTB, aptitude and dynamism of the private sector and aspirations of the local communities for further development of tourism in the country. Representation and active participation from a wide spectrum of tourism stakeholders is taken into prominence in order to make the campaign inclusive and participatory in modus operandi and effective in delivering results. The campaign will also focus on mobilizing the networks of the Non-Resident Nepalese (NRN) communities, Nepalese diplomatic missions abroad, non-governmental organisations, airline companies and the media. Similarly, friends and well-wishers of Nepal, tourism academicians and celebrities are approached in order to highlight the campaign internally and internationally.

Quantified Targets (Output)
The primary goal of the campaign is to bring in one million international tourists to Nepal, almost double of the current figure of slightly over half a million tourists in a year, in 2011. Apart from this overarching goal, the campaign targets to:
1. At least 40% of the international tourists travelling beyond the present tourism sites.
2. Encourage additional investment on tourism infrastructures by 50%.
3. Promote and maintain the record of domestic tourism.

The campaign seeks to accomplish these outputs by adopting appropriate strategic interventions in partnership with the concerned tourism stakeholders. Diversifying the tourism products, capacity building of tourism stakeholders, enhancing air and land connectivity, exploring new tourism segments and focusing on the regional markets with right product and promotional mix are the planned strategic moves during the campaign.
