Editorial Message

It is with great pleasure and a deep sense of responsibility that we present the inaugural volume of ACADEMIC AURORA, a double-blind, peer-reviewed multidisciplinary science journal published by the Research Management Cell (RMC), Tri-Chandra Multiple Campus, Tribhuvan University, on the occasion of the 108th anniversary of Tri-Chandra Campus. This first volume marks a milestone in our institution's commitment to fostering a vibrant research culture and disseminating high-quality scientific knowledge.

The establishment of ACADEMIC AURORA reflects the Research Management Cell's vision of building a credible platform for original research, scholarly dialogue, and scientific innovation. As its inaugural volume, this issue signifies not merely the launch of a journal but the commencement of a sustained commitment to academic excellence, research integrity, and ethical publication practices.

Encouraged by the research community's enthusiastic response, we received numerous submissions from diverse scientific disciplines. After rigorous double-blind peer-review and careful editorial evaluation, seven manuscripts were selected for publication. Although not all submissions could be included, each was assessed with fairness, impartiality, and adherence to scholarly standards. From the outset, our editorial team has remained committed to the highest standards of quality, originality, methodological rigor, and ethical publishing.

This inaugural publication was made possible through the collective efforts of many individuals. We extend sincere gratitude to the authors for entrusting us with their research and for their patience throughout the editorial process. Our heartfelt appreciation goes to reviewers, whose expertise, constructive critiques, and dedicated service ensured the quality and credibility to the published articles. Their voluntary contributions remain the cornerstone of scholarly publishing.

We warmly invite researchers, academicians, and scientists to support ACADEMIC AURORA through their scholarly contributions, constructive reviews, and active academic engagement.

Editor-in-Chief
