

## Editorial

*BMC Journal of Scientific Research* is an annual publication of the Research Management Cell, Birendra Multiple Campus, Bharatpur, Chitwan. It is a multidisciplinary, double-blind peer-reviewed journal which provides a forum for aspirant researchers and scholars working in different disciplines in different universities and campuses to publish their research and review papers. *BMC Journal of Scientific Research*, included in NepJOL, publishes original research papers in different disciplines including language and literature, education and philosophy, pure and applied science, management, culture, and the like. It is a bilingual journal publishing papers in English and Nepali languages.

The Research Management Cell, Birendra Multiple Campus, Bharatpur, Chitwan has already published seven volumes of this journal. The 8<sup>th</sup> volume, at your hand, contains 14 articles discussing different issues in Chemistry, Physics, Botany, Geology, Statistics, Management, Population and Nepali. It is believed that the researchers of different fields of knowledge will find this volume fruitful and supportive to their researches.

Finally, we extend our sincere gratitude to all the contributors for their scholarly papers and the referees for timely and insightful reviews of the articles. The Editorial Board has been conscious of avoiding editorial errors. However, we always welcome constructive comments and suggestions to make qualitative improvements in the coming issues of the journal.
