Notes of Editor-in-Chief

It is my great pleasure to publish the Volume 2 Issue 1 of Universal Technical Journal of Lumbini International Academy of Science and Technology (UTJLIASST) for our all colleagues, contributors and readers. This issue of journal underscores the continued commitment to advancing the research through innovative practices and meaningful dissemination of scholarly knowledge. Indeed, UTJLIASST aims to provide a scholarly platform for distinguished researchers, academics and practitioners for their sharing emerging scientific ideas to address the contemporary challenges in the discipline of science and technology through innovative research and discovery. Moreover, this will contribute to the technological progress and sustainable development for the human and non-human welfare.

I extend my sincere and heartfelt gratitude to all the authors, reviewers, members of the Editorial Board as everyone scholarly and invaluable has contributed accordingly own responsibility with the continued trust and support. Their commitment, dedication and enthusiasm for research, innovation and development have strengthened the quality of this scholarly publication. I sincerely appreciate their collective efforts and unwavering commitments for advancing the scientific knowledge.

As an Editor-in-Chief, I am deeply honored to be a responsible part of this scholarly endeavor. I look forward to work with our dedicated scholarly contributors with more wider community in the days to come as well. I am confident that our collective commitments will advance the excellency in the publication of UTJLIASST. I am further optimistic that such academic effort will continue to flourish and evolve more standard and quality in the years of coming establishing it as respectful and leading journal in the publication of scientific and technological research in Nepal.

Sahadeep Thapa (PhD)
